

FORSYS METALS ANNOUNCES NON-BROKERED PRIVATE PLACEMENT

Toronto, ON – August 8, 2014 - Forsys Metals Corp. (TSX: FSY) (FSE: F2T) (NSX: FSY) (“Forsys” or the “Company”) is pleased to announce that it intends to raise up to C\$3.2m in gross proceeds by way of a non-brokered private placement of up to 10,000,000 units (“the Units”) in the Company at a subscription price of \$0.32 per Unit.

Each Unit will consist of one Class A Common Share (“Common Share”) and one half of one Common Share purchase warrant that entitles the holder to acquire a new Common Share in Forsys at a price of \$0.45 for a period of two years from the date of issue.

Proceeds from the private placement will be used to fund the completion of the Company’s recently announced Feasibility Study for its Norasa Uranium project in Namibia, as well as for general working capital purposes. The Feasibility Study, which is being prepared by AMEC, is expected to be completed during Q1 of 2015.

Forsys has received a firm commitment from Leo Fund Managers Limited (“Leo”), the Company’s largest shareholder, whereby Leo will subscribe on behalf of certain of its funds for 6.625 million Units for gross proceeds of C\$2.12 million. Forsys Chief Executive Officer Marcel Hilmer said, “A further investment in the Company by Leo, a leading European financial services company based in London, demonstrates a continuing commitment by Leo to the Company specifically and the uranium industry in general.”

The Offering is expected to close on or about August 15, 2014. All securities issued through the private placement will be subject to a four-month and one-day hold period from the date of the closing. Completion of the private placement is subject to customary approvals and conditions.

Finders’ fees may be payable on all or a portion of the non-brokered placement.

Forward-Looking Information

This news release contains projections and forward-looking information that involve various risks and uncertainties regarding future events. Such forward-looking information can include without limitation statements based on current expectations involving a number of risks and uncertainties and are not guarantees of future performance of the Company. The following are important factors that could cause Forsys actual results to differ materially from those expressed or implied by such forward looking statements: fluctuations in uranium prices and currency exchange rates; uncertainties relating to interpretation of drill results and the geology; continuity and grade of mineral deposits; uncertainty of estimates of capital and operating costs; recovery rates, production estimates and estimated economic return; general market conditions; the uncertainty of future profitability; and the uncertainty of access to additional capital. Full description of these risks can be found in Forsys Annual Information Form available on the Company's profile on the SEDAR website at www.sedar.com. These risks and uncertainties could cause actual results and the Company's plans and objectives to differ materially from those expressed in the forward-looking information. Actual results and future events could differ materially from anticipated in such information. These and all subsequent written and oral forward looking information are based on estimates and opinions of management on the dates they are made and expressed qualified in their entirety by this notice. The Company assumes no obligation to update forward-looking information should circumstances or management's estimates or opinions change.
